**a) Jane Dodds MS – Public Transport in our Communities**

The following response was received from Jane Dodds MS:

“Over recent weeks many residents from across Mid and West Wales have written to me to express their frustration with the loss of services and, in particular, the loss of the Flecsi Bwcabus service. I share everyone’s concern and frustration about the deterioration of public transport.

I spoke recently in a debate in the Senedd on protecting and investing in bus travel.

Since my election to the Senedd, the provision of reliable, affordable, and accessible public transport has been a recurring theme in my work. Too many of our communities are left isolated when bus services are reduced or withdrawn, with a huge impact on individuals and local businesses.

I have also been [critical](#) of how the Welsh Labour Government has responded to the challenges the bus industry has faced following the pandemic, and have called for [urgent clarity](#) around future funding and legislation for the bus industry.

I will continue to stand up for the investment needed in public transport, in particular our rural communities who are so often neglected. If there are any other matters where I can be of assistance, please get in touch at any time.”

The Clerk had forwarded this to John Senior. This was noted.

Cllr Williams had been in contact with a supplier with regards to purchasing a shed in place of the containers. The price for at 30 x 15 shed was quoted at £10,000, there would also be a fee for planning permission and drawings. It was agreed this was too much to be funded from the Bryn Titli Fund.
